Dear Hiring Manager,

I am currently looking for a challenging position for a senior level.

Having helped diverse companies reach high profitability levels through expert innovative alignment via user experience expertise and interactive user interface strategies, I am offering over 10 years of UX leadership and creative development experience.

I am a multi-disciplinary designer, focusing on UX and UI. I have experience with research and design process from ideation to implementation, ability to translate needs and requirements into clear design solutions, excellent problem solving and communication skills. By using design thinking process, I participated in stakeholder analysis, persona creation, journey mapping, ideation, hi-fi and lo-fi prototyping, usability testing and continual iteration.

I'm expert at wireframing and prototyping my way from ideation to delivery. I have strong grip at HTML, CSS, GIT, Gulp and JS (usage knowledge) as well.

I would be passionate to be a part of your team and create great experiences to deliver splendid outcome.

I look forward to hearing from you.

Sincerely,
Muhammad Saad
